Project Overview

What were the main ideas of the project?

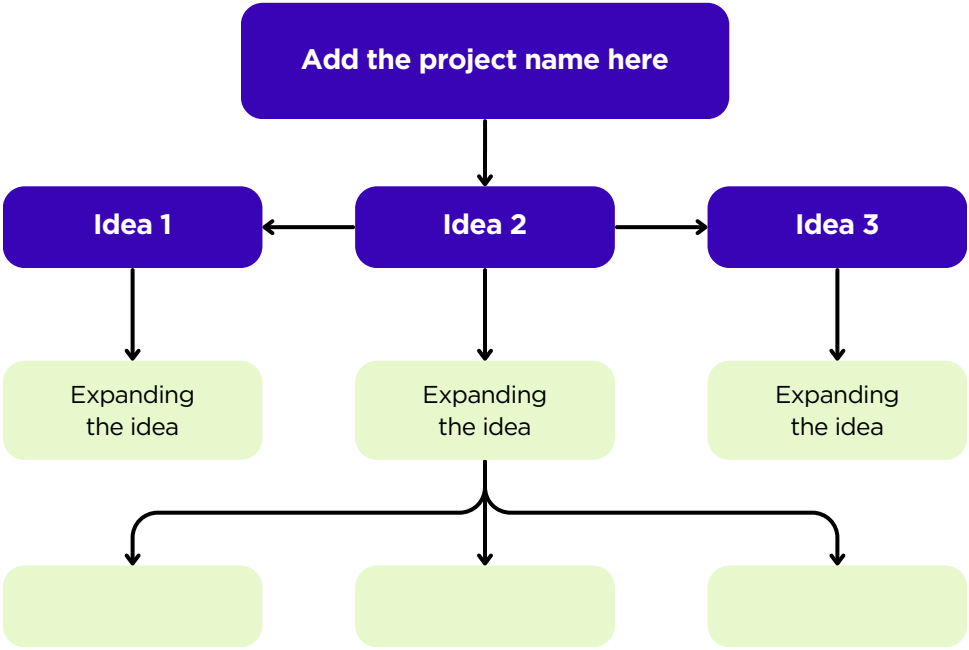

What did you learn?

What do you find interesting?

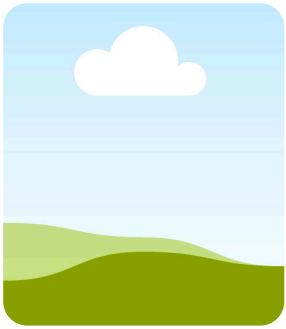

Initial Ideas

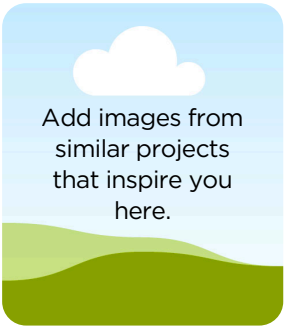

Use this graphic organizer to brainstorm any ideas you have and note the flow of your project.

Tip:

Build your chart or diagram faster! **Right-click** on any of the shapes, **enable quick flow,** and **click the arrows** to add corresponding shapes.

Research

Summarize your findings and cite your sources below.

Key Findings and Conclusions	References
Example: Global temperatures have gone up by about 2.2 degrees Fahrenheit since the late 1800s, affecting ecosystems greatly.	www.reallygreatsite.com
Summarize important facts, statistics, or findings here	List here reliable websites, articles, or books where you got your information.

Steps Taken

Outline the steps you took to complete this project.

What were the first steps you took to start your project?

Add the next steps you had to take here.

Add the next steps you had to take here.

Were there any steps you had to revise or change along the way? Why?

Challenges Faced

Outline a challenge you faced here.

Outline another challenge faced here.

Solutions Implemented

Insert a photo of one of your solutions here.

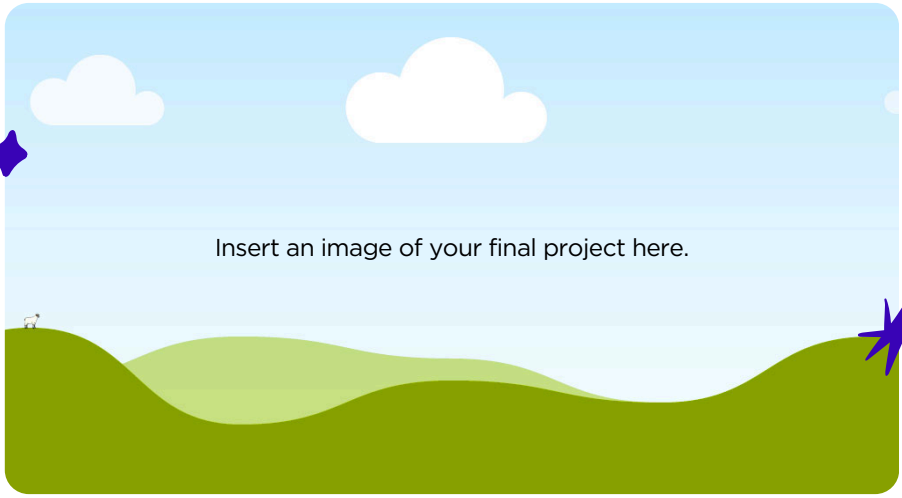

List the strategies you used to solve problems that arose.

Write a caption explaining the solution shown in the image.

Click the Draw tab on the toolbar to sketch one of your solutions here.

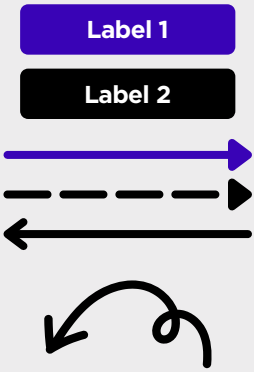

Which solution was the most effective? Why?

Final Project Showcase

Describe your final project briefly here.

Label your image if necessary.

Peer Feedback

Obtain peer feedback from your classmates using the table below.

Feedback provided by	2 things you did well	1 suggestion for improvement
Example: Jan	1. You did a great job explaining the main idea. It was clear and simple, so everyone could understand it easily. 2. I like how you made your learning log so colorful and easy to read. The pictures you used made it fun.	It would be even better if you added more details to the explanations, so we can learn more about the topic.

Reflections

Reflect on your project experience using the KWL chart below.

K - What I Know:

List what you knew about the topic before starting the project.

W - What I Want to Know:

Note any questions or things you were curious about at the beginning.

L - What I Learned:

Summarize what new knowledge or skills you have gained after completing the project.

Self-Assessment

Read each statement in the chart below, copying and pasting the faces according to how you feel about your effort and work.

	**I did this all the time**
	**I tried to do this most of the time**
	**I did this some of the time**
	**I did this a little**
	**I did not do this**

Statement	Assessment
Example: I tried my best throughout this project.	
I effectively managed my time during this project.	
I worked well with my team during this project.	
I found effective solutions for challenges.	
I clearly understood the project's goals.
